

Electronic Resource Management and Discovery System

Rose Nelson

Systems Librarian

Colorado Alliance of Research Libraries

goldrush@coalliance.org

<http://grweb.coalliance.org>

Agenda

- What is the CO Alliance?
- What is Gold Rush?
- Gold Rush knowledgebase
- Technical and maintenance
- Enhancements
- Public interface-resource discovery
- Gold Rush Staff Toolbox

Who Are We?

- Colorado Alliance of Research Libraries
- A non-profit consortium of 11 libraries founded in 1974. 501c3
- History of innovation
 - CARL ILS–now TLC
 - UnCover– now Ingenta

Who Are We?

- Member of ICOLC
 - We do standard consortial stuff with a twist
 - Database licensing, shared collection development
 - Data hosting Software development (e.g. Gold Rush, Prospector, Alliance Digital Repository The Charleston Advisor)
 - Operates over 20 servers with multiple T1s and BGP Internet redundancy
-

What is Gold Rush?

A central registry of databases and print/electronic journals that are profiled to the subscriptions of individual libraries

- Electronic resource management (ERM)
 - Content Analyzer
 - Reference linking (OpenURL) + public search interface (A-Z)
 - Knowledgebase
-

The Problem

- Huge percentage of our collection budget is for digital materials
 - Patrons and librarians are unable to find many of these resources
 - We have purchased access to full text, but what and where are they
 - Commercial solutions are sometimes unaffordable
-

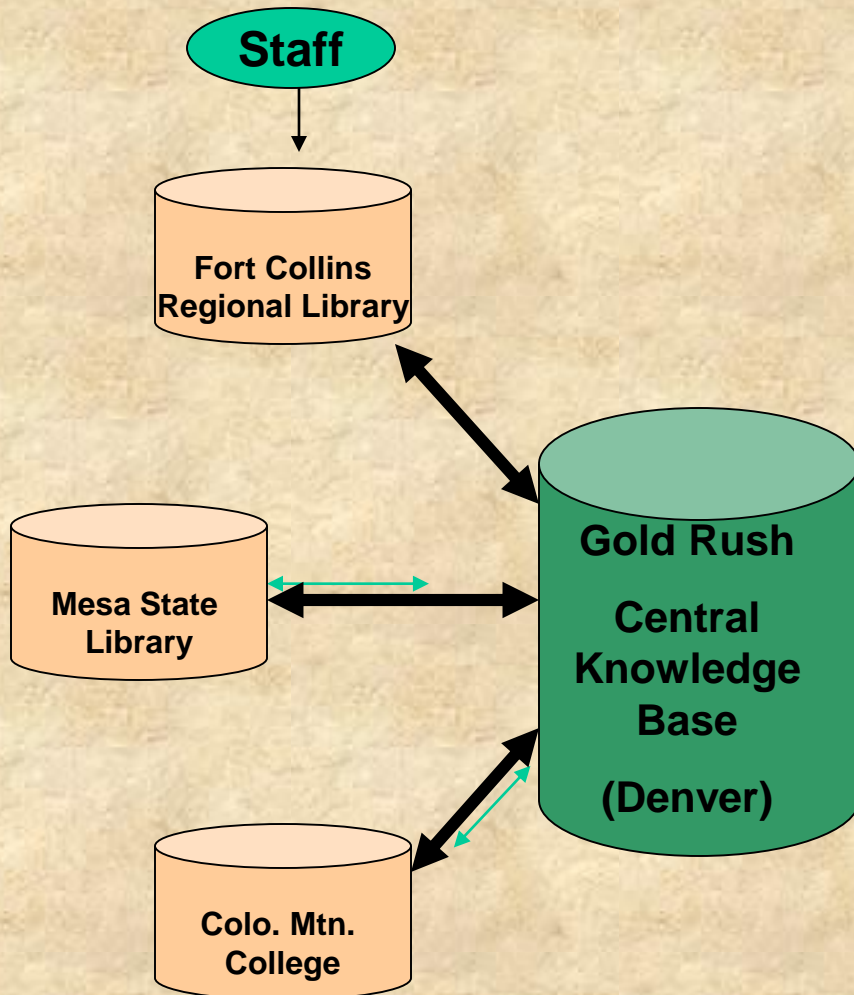

An Integrated Solution

- Gold Rush is a central registry of print/electronic journals that are profiled to the subscriptions of individual libraries
 - Electronic Resource Management (ERM)
 - Content Comparison
 - Reference Linking—link from one database to another
 - Journal Finder and A-Z list of journals

Am I too small?

- Gold Rush works best for libraries that have access to multiple databases.
- BUT, if you are in the AIRS deal you will have access to 14 databases that are subsidized by the state. Gold Rush would really help!
- And anything else you get could be included too!

Gold Rush Knowledgebase

- Select title lists from central knowledge base
- Upload new content if desired
- Add, modify and delete title lists or content within lists as needed

Knowledgebase

- Gold Rush currently has >1,500 title lists loaded representing more than 100,000 journals
 - Primary publishers
 - Aggregators
 - Indexing & abstracting services
 - Gold Rush has virtually all significant Open Access (free) journals available as title lists
-

Building & Maintenance

- All metadata comes directly from providers. Constant updating
 - We supplement title lists from aggregators and publishers with subject headings and alternate titles
 - You can upload, modify, add or delete title lists or individual titles at any time
 - Can load local serials holdings
 - Participating libraries that load/update lists are added to the central knowledgebase for a collaborative building process – especially useful for open access titles
-

Advantages

- No metadata is discarded. It includes both full-text as well as where titles are just indexed
- Title lists are updated overnight.
- Can add/modify/delete holdings in real-time. No delays

Building & Maintenance

- Centrally hosted
- No software or hardware to run
- Requires an Internet connection with browser
- Integrates with your ILS and local Website
- Provides a complete integrated list of all periodicals in print as well as what is in your various databases

Technical Details

- Operates on suite of Linux Servers
- Industry standard MySQL, Perl and ColdFusion
- ASP solution. Servers in Denver.

Information

- Full documentation available
 - Within the Gold Rush Staff Toolbox
 - At the Gold Rush informational Website at <http://grweb.coalliance.org>
 - goldrush-I listserv
 - Software updates
 - Title list updates
 - System maintenance and other general info
-

Benefits of Selecting Gold Rush

- Makes electronic resources much easier to find
- Can enable regional resource sharing among libraries-school, public, academic
- Lowest price/performance on the market (steep Marmot discount)
- Makes managing e-resources much easier

Welcome to Preston Medical Library Ejournals

Welcome to the new ejournals page powered by Gold Rush. This tool can help you find specific journal or electronic resource.

You can begin simply by entering a term in the Search Box, then clicking "Search". Alternatively, you can use the A - Z list below.

Authorized users who are off-campus will need to login to [Off-campus access](#) to ensure that any licensed resource you may use through this tool will allow you access.

For more information about Gold Rush or how to use it, click on the "Help" link above.

Use the links below to access an alphabetical list of resources.

Mineralization and carbon turnover in subarctic heath soil as affected by warming and additional litter

Riikka Rinnan^{a, b}, Anders Michelsen^b, Erland Bååth^a and Sven Jonasson^b

^aDepartment of Microbial Ecology, Lund University, Ecology Building, SE-22362 Lund, Sweden
^bDepartment of Terrestrial Ecology, Institute of Biology, University of Copenhagen, Øster Farimagsgade 2D, DK-1353 Copenhagen K, Denmark
Received 22 January 2007; revised 16 May 2007; accepted 24 May 2007. Available online 19 July 2007.

Abstract

Arctic soil carbon (C) stocks are threatened by the rapidly advancing global warming. In addition to temperature, increasing amounts of leaf litter fall following from the expansion of deciduous shrubs and trees in northern ecosystems may alter biogeochemical cycling of C and nutrients. Our aim was to assess how factorial warming and litter addition in a long-term field experiment on a subarctic heath affect resource limitation of soil microbial communities (measured by thymidine and leucine incorporation techniques), net growing-season mineralization of nitrogen (N) and phosphorus (P), and carbon turnover (measured as changes in the pools during a growing-season-long field incubation of soil cores *in situ*). The mainly N limited bacterial communities had shifted slightly towards limitation by C and P in response to seven growing seasons of warming. This and the significantly increased bacterial growth rate under warming may partly explain the observed higher C loss from the warmed soil. This is furthermore consistent with the less dramatic increase in the contents of dissolved organic carbon (DOC) and dissolved organic N (DON) in the warmed soil than in the soil from ambient temperature during the field incubation. The added litter did not affect the carbon content, but it was a source of nutrients to the soil, and it also tended to increase bacterial growth rate and net mineralization of P. The inorganic N pool decreased during the field incubation of soil cores, especially in the

The screenshot shows a Mozilla Firefox browser window displaying the Lupton Library website. The address bar shows the URL: <http://www.lib.utc.edu/grx/?method=fullJTRec&query=60574>. The page title is "Lupton Library - Get it! - Find Journals".

The main content area displays search results for "JAMA - Journal of the American Medical Association (0098-7484)". Below the title, there are links for "Ulrichsweb.com Full Citation" and "Find an Article". The subjects listed are "Health; Medicine;".

Two yellow callout boxes with arrows point to specific sections of the page:

- Full Text Access**: Points to the "Get Full Text Journal Access" section, which lists "HighWire Press Journals 1992-05-20 to current".
- Local print holdings**: Points to the "Get it in print at the UTC library" section, which lists "UTC Print & Microform Journals".

The left sidebar contains a "Main Menu" with links to Library Home, Students, Faculty & Staff, Alumni & Visitors, Special Collections, and Site Map. Below it is an "About Us" section with links to Hours, Directions, Floor Plans, Directory, Employment, Contact Us, and more... A "Get Help Now!" section on the right provides links for Help Using This, IM a Librarian, Email a Librarian, Call (423) 425-4510, and Find Journals.

At the bottom of the page, there is a search box for "Find journals by title or ISSN" and "Browse journals by Library of Congress subject headings". The footer contains copyright information: © 2008 Lupton Library :: The University of Tennessee at Chattanooga, Dept. 6456 :: 615 McCallie Ave :: Chattanooga, TN 37403-2598 :: 423.425.4501 :: Directions :: E-mail the Webmaster.

Direct Link to Article-XML Gateway

The screenshot shows a Mozilla Firefox browser window displaying the Lupton Library website. The address bar shows the URL: <http://www.lib.utc.edu/grx/?method=grResolveArticle&title=meeting+a+challenge+with+ideas+and+optimism&title=Time&issn=0040-781X&volume=16>. The search results for the article "meeting a challenge with ideas and optimism" are displayed. The article details are: Author: [unintelligible], Journal: Time, ISSN: 0040-781X, Volume: 166, Issue: 20, Page: 5, Date: 2005. The page provides several options to access the article, including "Get It!" buttons for General Reference Center Gold (Gale/TEL), Academic OneFile (TEL/Gale), ABI/Inform (ProQuest), WilsonWeb, and General Business File ASAP (TEL/Gale). It also lists databases where the article is available, such as ABI/INFORM Research, Academic One File, General Business File ASAP, and LexisNexis Academic. The page includes a "Get Help Now!" sidebar with links for "Help Using This", "IM a Librarian", "Email a Librarian", "Call (423) 425-4510", and "Find Journals". The footer contains contact information for the Lupton Library at the University of Tennessee at Chattanooga.

2007 Enhancements

- ERMS (Subscriptions) – Released Summer 2007
 - Ability to define and add your own fields in addition to the 87 that now exist
 - Ability to reorder sections
 - Ability to reorder fields within sections

Gold Rush Staff Toolbox ? [Home] Exit

Reports Holdings Subscriptions Cataloging Settings

Home User: Rose Nelson
Site: UNM

Welcome to the Gold Rush Staff Toolbox! (Version 4)

The Gold Rush Staff Toolbox is divided into five main parts, each with a set of tools to help you perform specific tasks. There is also a Help section with instructions for using the Gold Rush tools.

To get started, just click on one of the menu items above.

If you click...	You can...
Reports	Compare databases and create other collection management reports.
Holdings	Add or remove databases and journal holdings.
Subscriptions	Manage your electronic subscriptions.
Cataloging	Add subject headings and alternate titles to your Gold Rush holdings.
Settings	Manage Gold Rush users and your sites IP addresses.

Gold Rush is brought to you by
The Colorado Alliance.
Please send any comments, questions,
and problem reports to:
goldrush@coalliance.org

Gold Rush Product Manager:
George Machovec

Detailed Subscription Record

The screenshot shows a Mozilla Firefox browser window displaying a web application interface. The address bar shows the URL: <http://unm.grstaff.coalliance.org/subscriptions/index.cfm?fuseaction=FullSubsRec>. The browser's bookmark bar includes items like "Gold Rush Live Site", "Gold Rush Manage...", "Prospector", "Gold Rush Staff Toolbox", "goldrushinfo - Home", "Gold Rush demo searc...", "Gold Rush", "Google", "Comcast Webmail - IN...", and "10 Day Local Weather...".

The main content area features a "Gold Rush Staff Toolbox" header with a search icon, a help icon, and an "Exit" button. Below this are five buttons: "Reports", "Holdings", "Subscriptions", "Cataloging", and "Settings". A navigation bar shows "Subscriptions -> Browse -> Full Subscription Record" and the user information "User: Rose Nelson, Site: UNM".

The "Subscriptions" section includes a form with the following fields:

- Vendor:
- Product: **ACM Digital Library**
- Perpetual Access: No
- Vendor Role:
- Product Type: Database
- Libraries:
- Group Purchase: Yes
- Group:
- Date Accessible:
- Subscription Status: Active
- Publisher:
- Jobber:
- Resource Type:
- Resource Medium: Website
- Resource File Type:
- Pick-and-Choose: No
- MARC Available: No
- Contract URL:
- Subscription Notes:

An "Update" button is located at the bottom right of the form. The browser's taskbar at the bottom shows the Windows start button, several open applications (Microsoft ActiveX, Microsoft Office, Firefox, C75SP1 Conte..., BCRWebinar11..., California_Libra...), and the system tray with the time 10:51 AM.

Add an Incident

*** Incident Name:**

*** Vendor & Product:** **Option 1 - Select From Gold Rush Providers/Databases**

Identify the Vendor and Product using one of the 3 options at right.

Any of the options can place a message on the Gold Rush Welcome Page and on the Gold Rush Browse Page.

If you use Options 1 or 2, an icon can also be added to affected resources on the Full JT Record page, and your message can be displayed on the Full DB Record page.

Provider: --- Select a Provider ---

Database: All Databases from Provider

Option 2 - Select From Gold Rush Subscriptions

Option 3 - Enter Vendor & Product

Service Status: --- Select a Status --- (Optionally, indicate the current status of the service)

Staff Notes:

Display Public Message: (Message will display above Welcome Message when your users log in)

Public Message:

A brief message to display to Gold Rush users describing the problem. Can contain HTML.

Contacts: Enter a new contact, or select from the list of existing incident contacts. Use ctrl-click or cmd-click to select multiple contacts.

Add New Contact	Add Current Contact
Name: <input type="text"/>	Alliance Help Desk
Email: <input type="text"/>	Alvin Brockway
Phone: <input type="text"/>	Andrew Smith
Fax: <input type="text"/>	Anna DeMiller
	Barbara Kosinsky
	Bob Simpson
	Bruce Preslan
	Bryan Lafata
	Charles Batsford

Use Ctrl-Click to add contacts from list. To remove a contact, de-select them in the list.

2007 Enhancements

- Web 2.0 capabilities for the public interface
 - XML gateway for submitting search queries using all standard searches
 - XML response with a defined DTD
 - Will allow you to make the GR Public interface look like anything you want using standard development tools such as AJAX, dojo and others
 - Create and manage your own stylesheets
 - To be released Winter 2007
-

Why Would We Select Gold Rush?

- Excellent functionality new Web 2.0
 - Small customer base so personalized service
 - Want to work with a non-profit
 - Long track record with product initially released in 2001 and offered outside of Colorado in 2003
-
