

# Pika For Catalogers

Mark Noble, Pascal Brammeier, Tammy Poquette, Marmot Library Network

# What is Record Grouping?

Consolidate all variations of a title into a single “Grouped Work” to make searching easier for patrons.

Goal is to keep titles with the same content together while separating out titles with different content i.e. Book and Movie.

# How Automatic Record Grouping Works

Normalize Title & Author

Pick an overall format

- Don't Group Movies with the

Book / Audiobook!

Generate a permanent id for the work

Can create a map of titles to normalize to different forms

Staff can force grouping of individual records

# Record Grouping

- Must be a Pika Admin with the Cataloging Permission to group works.
- Open the works that should be merged in your browser.
- Click on the link to the title that should be grouped with the other formats.
- This title will be the Source Grouped Work.
- Click on the Staff View tab to get the Group Work ID.

The screenshot shows a user interface for managing grouped works. At the top, there is a dark orange header with a dropdown arrow and the text "Staff View". Below this, the text "Grouped Work ID:" is followed by a long alphanumeric string "46be17cd-94eb-5a4d-e5ea-e80619fd65a6", which is circled in orange. Below the ID, there is a row of six buttons: "Go To Grouped Work", "Reload Cover", "Reload Enrichment", "View in Classic" (highlighted in light blue), "Force Reindex", and "Download Marc".

# Record Grouping

- Click on the link to the title that has the majority of the formats.
- This will be the Destination Grouped Work.
- Click on the Staff View tab to get the Group Work ID.

The screenshot displays a web interface with a dark orange header bar containing a dropdown menu labeled "Staff View". Below the header, there are four buttons: "Reload Cover", "Reload Enrichment", "Force Reindex", and "Force Regrouping". A large QR code is centered on the page. At the bottom, a section titled "Grouping Information" contains a field labeled "Grouped Work ID" with the value "022b367c-d8d7-5895-4e48-f35ae20853c6". The "Grouped Work ID" label and its corresponding value are highlighted with an orange oval.

# Record Grouping

- Open a new tab to sign into Pika and look for the Cataloging tab.
- Click on Grouped Work Merging link.

# Record Grouping

- Click the Add New MergedGroupedWork button at the bottom of the page.

Add New MergedGroupedWork

- Click on the Staff View tab to copy the Group Work ID for the title that should be grouped with the other formats (Source Grouped Work).
- Copy the Grouped Work ID.

▼ Staff View

# Author Enrichment (Wikipedia)

- Author Enrichment allows changing, hiding or adding a Wikipedia entry about an author.
- Searching for the author will give you a link to the author's information.

The screenshot shows a library search interface. At the top, there is a search bar with the text "Search for Dan Brown" and a dropdown menu set to "by Author". To the right of the search bar is a "GO" button and a link to "Advanced Search". Below the search bar, the results for "1) Angels & demons: [a novel]" are displayed. The author information "Author: Brown, Dan, 1964-" is highlighted with an orange circle. Below the author information, there are three options for the book format: "Book", "Audio CD", and "eAudiobook". Each option has a "Show Editions" button and a status indicator: "On Shelf" for the first two and "Available Online" for the eAudiobook. The eAudiobook option also includes the text "Online Hoopla Collection".

Dan Brown

**Daniel Gerhard "Dan" Brown** (born June 22, 1964) is an American author of thriller fiction, most notably the novels "Angels & Demons" (2000), "The Da Vinci Code" (2003), and "Inferno" (2013). Brown's novels are treasure hunts set in a 24-hour period, and feature the recurring themes of cryptography, keys, symbols, codes, and conspiracy theories. His books have been translated into 52 languages, and as of 2012, sold over 200 million copies. Three of them, "Angels & Demons" (2000), "The Da Vinci Code" (2003), and "Inferno" (2013), have been adapted into films.

Brown's novels that feature the lead character Robert Langdon also include historical themes and Christianity as motifs, and as a result, have generated controversy. Brown states on his website that his books are not anti-Christian, though he is on a 'constant spiritual journey' himself, and says that his book "The Da Vinci Code" is simply "an entertaining story that promotes spiritual discussion and debate" and suggests that the book may be used "as a positive catalyst for introspection and exploration of our faith".

## PIKA – FTP SERVER FOR SIDE LOADING

You will need an ftp client. If you do not have an ftp client, we recommend [FileZilla](#).

Open Filezilla. You will noticed your desktop folders and files on the left.
