Lloyd Chittenden to be on board Marmot in January, will address issues referred to in these minutes.

Melissa Powell received about 10 responses including info of which schools were unaware. Lloyd brought up fact that when records are brought in from another Z39.50 system, i.e. Prospector, Inn-Reach, etc., 001's on catalog records were being stripped out.

*Brandon Cole will check Z39.50 targets. The only one we need is OCLC WorldCat. Emily Veenstra-Ott pointed out that dups are occurring whether or SkyRiver is used.

Jimmy – need smart pre-process for SkyRiver and/or OCLC. *Mark N./Lloyd C. discussion.

*Jimmy / Lloyd - will bring issues to SkyRiver (Jodi)

Lloyd – LTI complete overhaul needed to learn what has been deleted, send them newly cataloged records, authority record changes, LTI sends notifications.

Jo Norris – Georgia said we could use both 001's but Sierra can't have 2 001's, perhaps use 035/019 fields?

*Lloyd to scan catalog or CreateList, etc.

*Brandon to contact absentees on this call regarding SkyRiver input.

*Brandon saw MKs task list, was it completed?, contact Marsha at LTI. (AUP/AEX)

*Brandon – contact Mark re Zepheira demo.
