Discussion topics

Topic	Report
Why do we treat 001's differently in different load profiles? Single translation map?	***Duplicates committee** meeting will follow up (August dup committee meeting).
MUG 2017 cataloging training?	***Tammy and Karen** are developing the program. ***Lloyd** – investigate WebDewey group subscription.
Jamie asks about the status of our current authority records and how we will change to the new ones.	We currently have the LTI authority records in Sierra. Lloyd is planning to overlay these with the records we get from MARCIVE. Deleting that many records would be difficult. Lloyd will replace the authority records after the bib records are loaded. Automatic authority control will be turned on after that.
Headings Reports training	After we turn on Automatic Authority Control we will get a training from III on how to use it. Everyone will be invited to that.

August Duplicates Sub-committee meeting: August 9, 9am MT
